

PACKAGE
CONTAINERS INC.

**CUSTOM POLY
BAGS**

For most products a bag is much more than just a device to carry your product.

Developing the right bag for your product can be the critical point-of-purchase device that moves the product off the shelf. It can even play a part in the product itself. At the very least, the bag can help build your brand. At PCI we can help with any and all levels of your bag needs, from standard sizes and applications to custom, one-of-a-kind needs.

RETAIL ///

An important part of retailing is making the positive visual impact that helps build awareness and reinforce your brand message and image. PCI can help you build and enhance your brand with every bag you give to your customers.

GROCERY • PRODUCE ///

In the produce section, it is important that the bag be easy to use, fit the application and help drive sales. Our line of grocery and produce bags fit all three critical needs in an attractive affordable manner.

DELI ///

Convenience is the key for both the customer and your deli counter employees. The PCI deli line of poly bags is reliable, easy to use, and cost-effective for virtually all deli counter uses and products.

FOOD SERVICE • MEALS TO GO ///

Excellent print quality, durability, high capacity and dual handles make our food service bag line ideal for almost any food service need or application.

ROADSIDE ///

Great color for branding and image recognition, lightweight yet durable. Always cost competitive, PCI has been a leader in roadside packaging for years.
